## IF ELECTED, HE WILL NOT SEEK A SECOND TERM

Mr. Bryan Reiterates His  
Statement Made Many  
Months Ago.

### DUTY OF PRESIDENT.

Not to Let Personal Ambition  
Bias His Views of Pub-  
lic Questions.

Fairview, Lincoln, Neb., July 10. The following statement was made by William Jennings Bryan when at 3:34 a. m., he received the announcement of his nomination as the candidate of his nomination as the candidate of the Democratic party for President: "The place is the highest official position in the world, and no one occupying it can afford to have his views upon public questions biased by personal ambition. Recognizing this responsibility to God and his obligation to his countrymen, he should enter upon the discharge of his duties with singleness of purpose. Believing that no one can best do this when he is not planning for a second term, I announce now, as I have on former occasions, that if elected I shall not be a candidate for re-election.

"This is a nomination purely from the people as can be, and if elected my obligation will be as purely to the people. I appreciate the honor the more because it came, not from one person or a few persons, but from the rank and file, acting freely and without compulsion."

### Millions for the Farmers.

All reports are to the effect that

the present tobacco crop in the Black Patch will be a record breaker. Last year the association controlled 55,000 hogsheads and probably 20,000 hogsheads were handled by independent buyers. This year the crop will be much larger, how much is not known at this time. Estimates place the number of hogsheads at from 80,000 to 90,000, 90 per cent. of which is in the associations. Of the present crop, about half of the 55,000 hogsheads is still unsold, representing a money value of \$5,000,000. The new crop will be fully three times as large as the present holdings of the 1907 crop and should bring the farmers about \$15,000,000. With \$20,000,000 worth of tobacco on hand and on the hill the hard times should disappear when these crops are turned into money.

Operation for piles will not be necessary if you use Man Zan Pile Remedy. Put up ready to use. Guaranteed. Price 50c. Try it. For sale by Anderson-Fowler Drug Co. Incorporated.

## PLAN IS TO COMBINE TOBAC- CO SOCIETIES

The Officials of Organizations  
Are to Meet in Ten-  
nessee.

FINAL STEPS AUG. 20th.

Other Tobacco News of  
Much Interest at This  
Time.

Springfield, Tenn., July 13.—Anent the meeting of the officials of several tobacco organizations of Kentucky, Tennessee and Indiana, which was held at Bowling Green on July 9 for the purpose of considering the amalgamation of the several tobacco organizations, a meeting was held Saturday at Glen Raven, this county, at the home of Felix G. Ewing, general manager of the Planters' Protective Association, for the further consideration of the combine. While nothing of a definite form was arrived at, yet the meeting yesterday gives further assurance of the certainty of the amalgamation.

The Hon. Felix G. Ewing, the Hon. Charles H. Fort and the Hon. Joel B. Fort, representing the Planters' Protective Association; M. C. Rankin, Commissioner of Agriculture of Kentucky, and Mr. Clarence Lebus and Miss Alice Lloyd, of the Burley division of the Society of Equity, were present.

A meeting of the committee of eight appointed at the meeting at Bowling Green will meet at Guthrie for the purpose of drawing plans of amalgamation to be submitted at the meeting in Bowling Green on August 20.

The several organizations will not lose their identity, but the amalgamation is proposed for the purpose of strength in the tobacco world and for the purpose of protection against hostile legislation.

The amalgamation is proposed to contain the Planters' Protective Association, the Burley division of the American Society of Equity and the Henderson and Green River stemming districts.

The Planters' Protective Association operates in eleven counties in Tennessee and seventeen in Kentucky, controlling nearly 90 per

cent. of the dark tobacco in these counties. Of the yearly production of 150,000,000 pounds of dark tobacco it is estimated that this association controls 80,000,000 pounds.

The ultimate object of the amalgamation is to control not only the bright and dark tobaccos of Kentucky, Tennessee and Indiana, but that grown in Virginia, North Carolina, Wisconsin, Ohio and Connecticut.

The name for the amalgamation has not yet been proposed.

Friendly relations have always existed among the several organizations, but no official confederation has before been attempted.

### Springfield Market.

Springfield, Tenn., July 13.—The local association tobacco salesroom have presented a scene of unusual activity in buying for the past three weeks. Up to the present 6,000 hogsheads have been disposed of this season at an average price of about \$11 per hundred.

About 1,300 hogsheads are yet to be sold, but as there is quite a bunch of these lug hogsheads the average price will be cut down a little.

Charles H. Fort, president of the association, in a speech here last week, made the statement that a move was on foot to defeat Mr. F. G. Ewing for general manager of the association.

### Fight on Ewing.

It is said that there is a move on foot to elect Ed Webb, of Trenton, to succeed Col. Felix G. Ewing as general manager of the tobacco association. The Tobacco Planter, the official paper at Guthrie, is supporting Ewing in the contest to be waged.
